NEW YORK, Dec. 8.—The first annual meeting of the National Civic Federation was begun here today. Senator Hanna called the session to order and made an address of welcome, in which he said:

"In extending welcome to you I also wish to extend congratulations. I am glad to say that our experiences in the last year have been good to those who are charged with the responsibilities of this work, the fact that the great mass of the American people are in sympathy with the organization and its work. This great industrial question has come to the surface, and is demanding due and proper consideration by the people of the United States. No more important question claims their attention than this one, which seeks to bring about a better relationship between capital and labor."

The session, which opened yesterday in the Hotel Roosevelt, will continue until Saturday morning. Major Low made an address of welcome on behalf of the city. Among those present were John C. Mullan of Buffalo, Lewis Nixon, Bishop Potter, President Eliot of Harvard, Archbishop Prendergast, James J. O'Farrell, James A. Heenan of Baltimore, James J. Chambers of Pittsburgh, Theodore J. Koesten, James Duncan, Daniel J. Lynch, John Mitchell, Charles H. Taylor, Jr., president of the American Chamber of Commerce; Fred Towne, George H. Smith, W. H. Hunt, Mahon, ex-senator Thomas J. Palmer of Michigan, John Graham, George Cambridge and John A. Hobart of Boston.

NEW YORK, Dec. 8.—Alfred Mosley told the Civic Federation how he came to bring a delegation of British workmen to America. When in South Africa he had found that American engineers had succeeded in minimizing conditions under British employers had failed, and a later visit to the United States had convinced him that American business methods were in advance of those of the old country. One of the reasons of this, he said, was the desire by American manufacturers of piece work, and the encouragement offered to men and initiative. There is not that close touch between the English manufacturers and the workers here as there is in England.

At the afternoon session Archibishop Ireland made an address in which he said the year almost gone had confirmed his belief in the correctness of their conviction that they were engaged in a great and salutary work, that of striving to bring together, to put in the face, to the world, that the one could understand the rights of the other, so that the one would be willing to perform its duty toward the other. The commissioners expect the company to bring in evidence in rebuttal to the statements of the witnesses on Saturday and today.

The commissioners were very much surprised today to learn that the 10 per cent increase granted in 1910 was not a straight-out raise in wages, but instead, a 2½ per cent increase and a reduction of pay 7½ per cent, making the net increase in pay 1 per cent, which the miners claim is not being paid by the Markle Com-

munity. The question came in for much discussion, and no one in the courtroom could give the commission a satisfactory explanation.

There was a flurry at the afternoon session when Dr. H. E. Wilson of Scranton, for the independent commissioners, referred to the "Teddy Roosevelt" clause of the arbitration award, and objection from Brig.-Gen. Wilson and the general was sustained by Chairman Gray.

The commissioners today made an offer request upon the companies to present figures as quickly as possible, and the day after the Erie and the Canadian Pacific submitted statistics regarding wages, hours and other data relating to the subject. The data made quite a large bundle.

DANGER FROM AGITATORS.

ANTHRACITE LABOR PROBLEM.

BY DIRECT WIRE TO THE TIMES.

WASHINGTON, Dec. 8.—[Exclusive Dispatch.] The administration is keeping close watch on affairs in the anthracite region, and to arrest the growth of prosperity is but a precursor of social unrest and happiness and of greater social wealth. It is not at one meeting it is not in one place that these problems can be solved. At the same time we cannot feel sure that a solution is coming. Humanity has sufficient mind and has given sufficient time to the problem in which it was vitally interested.

Charles Francis Adams was then introduced. He said, in part:

"The anthracite arbitration cannot be improvised. It is idle to talk in language as empty as it is grandiose of curbing and regulating potentialities, and to submit them to the commission there is excellent reason to believe. The commission has not taken only their routine course, considerable hope is cherished here that the controversy may be settled before next spring. It is a fact which the administration faces, that its arbitration commission has no legal power to enforce its decisions when rendered.

THE EXPANSION OF THE FIELD.

SAN ANTONIO (Tex.). Dec. 8.—The civil engineer of the "Frisco" system says that the field of expansion of the United States is "Teddy Roosevelt's." The "Frisco" is the "Big Four," and the general was sustained by Chairman Gray.

"The anthracite arbitration cannot be improvised. It is idle to talk in language as empty as it is grandiose of curbing and regulating potentialities, and to submit them to the commission there is excellent reason to believe. The commission has not taken only their routine course, considerable hope is cherished here that the controversy may be settled before next spring. It is a fact which the administration faces, that its arbitration commission has no legal power to enforce its decisions when rendered.

The commissioners today made an offer request upon the companies to present figures as quickly as possible, and the day after the Erie and the Canadian Pacific submitted statistics regarding wages, hours and other data relating to the subject. The data made quite a large bundle.

NEW YORK, Dec. 8.—[Exclusive Dispatch.] The administration is keeping close watch on affairs in the anthracite region, and to arrest the growth of prosperity is but a precursor of social unrest and happiness and of greater social wealth. It is not at one meeting it is not in one place that these problems can be solved. At the same time we cannot feel sure that a solution is coming. Humanity has sufficient mind and has given sufficient time to the problem in which it was vitally interested.

CHICAGO. Dec. 8.—Abe Attel, the California featherweight, outpointed Buddy Ryan of Chicago in a six-round fight here tonight. Attel made a good start, however, Ryan, after a hard round, recovered Attel and knocked him down with a left hook to the jaw. Attel took a round of nine and set to his work, showing every left effect and used a straight left-hand jab and Ryan was unable to evade, and the Californian had quite the better of each round with the exception of the first.*THE BERLITZ

His Cold Breath Destroys Lives of Eight Chicagoans.

Suffering Among Poor—Fierce Gale Raging in the Great Lakes—Fuel Famine.

DIRECT WIRE TO THE TIMES:
CHICAGO, Dec. 8.—(Exclusive Dispatch.) Chicago awoke to below zero weather this morning with a coal famine staring her citizens in the face, and much suffering among the poor. The cold wind has been blowing for the past two hours and the dead hand has been set on the freezing. Municipal authorities are doing their best to relieve the suffering, but the shortage of coal makes the problem serious. With the closing of the navigation today the Chicagoans' last hope of receiving hard coal by water. Three or four vessels are on the way, but their total contribution will be only about 12,000 tons—a tiny drop in the bucket of the city's demand.

Chicago's hope for fuel is in soft coal, but the poor must suffer for prices are certain to advance. One of the leading agents said he feared prices would be doubled, perhaps even trebled or quadrupled. The country from which coal is shipped to Chicago is checked with soft coal, but this city is comparatively little on hand, owing to demurrage rules. The amount remaining allows the market only ten days' attack of coal. This question was answered in the negative.

JUSTICE HOLMES ASSIGNED.
(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Dec. 8.—The Supreme Court through Chief Justice Fuller, made a reply to an application for a writ of habeas corpus in the Tepperman case. The proceeding was that of C. Elliott & Co. vs. Ferdinand Tepperman.

The question was whether "the Court of Appeals, under an appeal granted from a judgment of the trial court, has authority to reexamine the proceedings upon a jury trial, and remand for a new trial, if it shall appear that the transcript is certified to, that there was error in the instruction given or refused, or in the admission or rejection of evidence."

The question was answered in the negative.

DEPUTY TO JUSTICE HANCOCK.
(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Dec. 8.—The President today announced his acceptance of the invitation to attend the dinner to be given tomorrow night in honor of Justice Holmes at the Hotel Statler.

Justice Holmes is to celebrate the twenty-fifth anniversary of his appointment as a member of the court. It is expected that the President will deliver an address.

DEPARTMENT OF COMMERCE.
(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Dec. 8.—The work of preparing the Department of Commerce Bill proceeded apace today, Assistant Secretary Allen and the Commissioner of Patents appearing before the House Committee on Interstate and Foreign Commerce.

The subject on which they were questioned was the wisdom of withdrawing certain bureaus now in charge of other departments and attaching them to the proposed new Department of Commerce. Mr. Allen recommended that for the present, at all events, the Marine Hospital Service, the Life-saving Service, Steamboat Inspection Service, the Bureau of Navigation, Bureau of Statistics and Bureau of Fish and Salmon Fisheries be retained in the War Department because they are inseparably interwoven with the administration of the customs.

On the other hand, he recommended that the lighthouse establishment, the Bureau of Immigration, the National Bureau of Standards, and Coast and Geodetic Survey be transferred to the new department, as being the bureaus that have no special connection with the work of the Treasury, and which could well be spared.

The Commissioner of Patents opposed the transfer of the Patent Office to the Department of Commerce, and Assistant Secretary Hill of the Department of State favored the transfer of the Bureau of Foreign Commerce to the new department, but urged the retention of the consular service in the State Department.

DETROIT.
(BY THE ASSOCIATED PRESS—A.M.)

DETROIT (Mich.), Dec. 8.—This is the coldest day of the season here, and in Michigan it was also zero in this city, with a minimum of 10 degrees below zero. At Madison it was two degrees zero. All trains in the western and central parts of Wisconsin are late, delayed from Oshkosh, where there is a heavy snow. The weather will fall to ten above zero tonight. The severe weather has caused the almost total suspension of navigation. A fierce gale is prevailing on the lake.

COLUMBUS.

BY THE ASSOCIATED PRESS—A.M.
COLUMBUS (Ohio), Dec. 8.—More than six inches of snow fell in this city during the last thirty-six hours. Early today the government thermometer registered 12 above. The weather will fall to ten above zero tonight. The severe weather has caused the almost total suspension of navigation. A fierce gale is prevailing on the lake.

MILWAUKEE.

BY THE ASSOCIATED PRESS—A.M.

MILWAUKEE (Wis.), Dec. 8.—Reports from Wisconsin and Upper Michigan were that the cold wave was very severe. At Madison it was two degrees zero. All trains in the western and central parts of Wisconsin are late, delayed from Oshkosh, where there is a heavy snow. The weather is suffering from the intense cold.

JAMESTOWN.

BY THE ASSOCIATED PRESS—A.M.

JAMESTOWN (N. Y.), Dec. 8.—An average of two feet of snow has fallen in Chautauqua county during the last twenty-four hours, and it is still falling.

DETROIT.

ST. LOUIS.

BY THE ASSOCIATED PRESS—A.M.

ST. LOUIS, Dec. 8.—A veritable cold wave has struck St. Louis and vicinity. Yesterday was the coldest day of the season, but today there was a further drop in the temperature.

At 1 a.m. the Weather Bureau record was 18 degrees above zero. The sky is clear.

KANSAS CITY.

BY THE ASSOCIATED PRESS—A.M.

KANSAS CITY (Mo.), Dec. 8.—Today is the coldest of the season in this part of the Southwest, the temperature falling close to the zero mark. At Kansas City, the temperature was 18 degrees below zero. The first day of winter at 8 o'clock was 10 degrees above zero. The sky is clear.

OMAHA.

BY THE ASSOCIATED PRESS—A.M.

OMAHA (Neb.), Dec. 8.—Last night the mercury went to the zero mark throughout Nebraska and Western Iowa, but today's reports indicate that the temperature will fall again to several places. The severe cold snap has been particularly serious in the city, because of the small supply of coal, and a fear that it will be soon exhausted.

INDIANAPOLIS.

BY THE ASSOCIATED PRESS—A.M.

INDIANAPOLIS (Ind.), Dec. 8.—At 7 a.m. the thermometer showed 6 degrees zero. The indications are for rising temperature.

LOUISVILLE.

BY THE ASSOCIATED PRESS—A.M.

LOUISVILLE (Ky.), Dec. 8.—Freezing temperature overpreads the country south of the Ohio River to a line extending from Cincinnati to Little Rock, Tex., the thermometer in many cases recording the coldest weather of the winter. Rainfall in Southern Indiana and most snow has been reported from various points in North Texas and Oklahoma.

Fair and colder weather is generally forecasted south.

TOPEKA.

BY THE ASSOCIATED PRESS—P.M.

TOPEKA (Kan.), Dec. 8.—Zero weather prevails nearly all over Kansas tonight. The severe cold has not been accompanied by wind, and much suffering among stock has ensued. The snow is full of cakes of floating ice. In the portion of the State where coal is hardest to obtain, the weather is most severe.

CORY.

BY THE ASSOCIATED PRESS—A.M.

CORY (Colo.), Dec. 8.—The northwestern part of Colorado is having a severe cold snap, having a blizzard. During the night over a foot of snow fell, and a gale wind is drifting it high in many places. Trains are delayed.

NEW SUB-STATION.
The Los Angeles Railway Company began work on its first substation near Agricultural Park, about two miles west of the city. The foundation work is almost completed, and the brick superstructure will be finished by next month. The plan is to connect at the southern end of Grand Avenue lines. There are quite a distance from the new plant at Seventh street that were cut through the ground down at the ends. Furthermore, this fact has been noted in view of the reason of the great number of horses and cars propelled. The giant will have a capacity of 10,000 amperes, or the horsepower equivalent to have it open in a month.

Capt. Jacques has as great a horror of driving as any man can imagine. In this respect he is about the opposite of his cousin, who is known to have more than an ordinary taste for notes.

Capt. Harris and the Frenchman were at the southern end of Grand Avenue lines. There are quite a distance from the new plant at Seventh street that were cut through the ground down at the ends.

Furthermore, this fact has been noted in view of the reason of the great number of horses and cars propelled.

Silk Culture.

At the last meeting of the Seri-Culture Club an interesting paper upon the Indian Tussar worm was read and discussed. Said the speaker: "There are three species of this worm—the Tussar, the Muga, Anthera assamica, and the Eri attacus Blina, natives of Assam. The Muga worm, produces five broods and five harvests of cocoons annually. Each generation lasts four times, about thirty days, and passes sixteen days in pupal stage. The worm, when full grown, is about five inches long, green with red warts; the yellowish stripe along each side; the head is dark brown; the body is long and one inch in diameter. The fiber is yellow or white. Formerly the robes of the kings of Assam were made of this silk. All the wild silkworms are more robust and less tame; become to grow than the mulberry worm. Being many-brooded, they will lay eggs for six months, nine months in the year. The chief difference between these worms is the castor oil plant, which grows so freely in Southern California, and when grown mainly for silk, the food for the worms is the leaves of the plant. It is possible to secure a crop of oil-bearing seeds as well as leaves, thus getting double toll. The Chinese Tussar worm, however, is another sister of the Indian Tussar. The silk of this worm produces the fabric known as 'pongee' silk."

Forms of

RHEUMATISM.

Although we are all born with the principles of dissolution in our frame which continue to operate from our birth to our death, we are under obligations to Heaven and our loved ones to live as long as possible and to die painlessly.

At this time while we warn the thousands of rheumatic sufferers of the folly and danger of allowing rheumatism to run unchecked, we would like to assure them that Paine's Celery Compound permanently cures the terrible disease. This wondrous medicine has won the hearts of thousands and its virtues are lauded by tens of thousands from sea to sea and death.

Mr. Cha. W. Lockett, Mount Pleasant, S. C., who has been a sufferer from rheumatism for many years, writes that:

"I am now good for two months since I began to take Paine's Celery Compound for rheumatism. No other medicine, I think, could ever have done me so much good. I have not had a single attack of rheumatism since I began to take Paine's Celery Compound. I tried everything, and had two of the best doctors in Charleston, but they only gave me some relief for a day or two. Bottles of Paine's Celery Compound completely cured me."

THE FAIR MAIDEN
AND THE FORTUNE.Most Sensational Developments Yet in
"Charles Hill" Mystery.Another Will Bequeathing His Money to a Beautiful
Los Angeles Girl—Authorities Say It Is the Work of
Notorious Forgers—Was "Hill" Himself a Criminal?
More Kinks in the Complications.

THE most romantic sensation sprung yet in the "Charles Hill" or "Salem Charles" mystery was launched yesterday when a will purporting to be the last testament of Charles Hill was filed for probate in the County Recorders office.

The claimant is Grace Gertrude Driggs, aged 14, recently of Los Angeles, and her attorneys are R. H. F. Varnum and J. V. Van Duzen, city and H. M. Barlow of San Francisco. Mr. Barlow is a prominent guardian ad litem of the girl, and Gertrude Driggs, the mother, is named as sole beneficiary of the will, without bonds.

This is the second will that has been offered as "the real thing," since it was published abroad that the old recluse, calling himself Charles Hill, who died in this city May 17 last, had left \$12,000 in greenbacks in his safe.

Mrs. Driggs is said to have received her first information of the death of her husband in Dayton, where she was married several weeks ago, interviewing friends of his wife and husband. On this trip she secured affidavits from the coroner's office, and came home stating that they had known him in January, 1888. One witness swore that she was present when the will was executed.

Mrs. Driggs then made a trip to Chicago, and, together with her attorney, filed the will in the Union Bank of Savings, with no known heirs.

All the other wills have been demonstrated to be forgeries, and the proponents have backed down; but now comes one over which a determined

they expect to show that Charles Hill had absolutely no kin and that Mr. Driggs was not only a business associate, brother, and that the personal relationship existing between them prompted the making of the will, to fit such circumstances as will fit the possible existence account for its crude form and for the fact that it is drawn in pencil.

THE GIRL'S STORY.

The girl named in the will as sole beneficiary, was at that time only seven days old, and has now become a well-developed young woman, but appears very young. She has been in the city two years, it is alleged, supported herself on the stage, and materially aided her mother and older sister, who had to support the child at necessity, it is claimed, as the family was overtaken by misfortune and reverses after the death of Mr. Driggs.

Mrs. Driggs is said to have received her first information of the death of her husband in Dayton, where she was married several weeks ago, interviewing friends of his wife and husband. On this trip she secured affidavits from the coroner's office, and came home stating that they had known him in January, 1888. One witness swore that she was present when the will was executed.

MRS. DRIGGS HERE.

Mrs. Driggs came to Los Angeles about two months ago, and rented a room at No. 124 South Spring Street. She is engaged as Mrs. Morrison, and left the butcher, the Chinaman, and a sewing-machine man in the laundry.

When she left this place she gave a wrong address, but her maneuvers have not deceived the detectives. She is now here.

A few weeks after her advent here, Mrs. Driggs went to Arizona, ostensibly to visit former employer of her husband. She also told the officers who gave her the two pictures of the girl, Grace, and a due but for \$10,000, which she had given to Mr. Driggs with Hill's name.

Those who have examined this signature say that it is identical with that made up from letters in Charles Hill's and Salem Charles' handwriting, which were printed in The Times when the man was shot.

The man who was shot in Arizona, that gave the bill and pictures to Mrs. Driggs, said he was none other than the notorious Jack Gwyn, king over the country as the "prince of counterfeeters."

COUNTERFEITING RECORD.

It is now known that it is claimed, was in this one of the most notorious counterfeiters in the United States. He spent about thirty years of his life in prison, the last installment of which was a fourteen-year term in the Joint Penitentiary of Ohio.

SANTA CATALINA ISLAND.
BREAK OF THE WEATHER MAN.AVALON, Dec. 8.—The management of the Tournament of the Islands is kept pretty busy
these days, as the time grows near
the annual floral fete of NewYear's Day. Yesterday a meeting was
held at the Hotel, and over 100 guestsThe Finance Committee reports that
the amount of raising funds to carry
out the enterprise is being attended to
and success is being met with.

Nearly all those who subscribed last

year are duplicating their pledges
this year. The committee has voted to
raise \$10,000 to pay off the debt
of Tournament Park, so that it may
be turned over to the city. Then about

\$10,000 more money must be raised

for incidental expenses.

Greatest Delivery Service in Los Angeles.

Before giving credence to any of the malicious statements concerning our business emanating from the Union Labor News, Rogers and Hay, do a little investigating on your own account and you will see what unprincipled fellows these traducers are. The case in point is our "delivery system," which they untruefully state as requiring but three delivery wagons. Our business in reality requires from ten to fifteen wagons daily; and we would ask any doubters to come to our New High Street entrance any afternoon and see the wagons lined up for the 4 o'clock delivery. Don't think for a minute that such a malicious boycott object now is to show the public how these skulking cowards have lied and imposed upon them in their attempted efforts to injure us.

Exceptional Values in Art Needle Work.

All of us have friends to whom a dainty piece of needlework is a more acceptable gift than any other line of merchandise which could be procured. Your taste may run up to handsome Mexican draw work or you may desire to purchase the materials for a handsome cushion cover and make the article yourself. Let us remind you that the time is very short in which to complete any fancy work intended for holiday giving, and the following suggestions will be very acceptable to you.

Mexican Draw Work—We have secured from one of the largest exporting houses of Mexico 600 pieces of handwoven made plain including 10-inch squares and two covers at exactly one-half their regular price. They are all in choice designs and all of fine quality linen, some have fringed ends, others hemstitched, with 1, 2 or 3 rows of
